🪪 PROFILE

Aspiring Android developer proficient in Java, XML, and Android Studio. Skilled in UI/UX design, problem-solving, and collaboration. Dedicated to delivering high-quality mobile applications that meet client needs and enhance user experiences.

🧠 SKILLS

Programming Languages: Java, Kotlin
Software: Android Studio
Database: Room Database, Firebase

🎓 EDUCATION

Prof. Rajendra Singh (Rajju Bhaiya) University, Prayagraj
Bachelor of Science   *(2022 - 2025)*

📂 PROJECTS

Quizkart App 🔗
Developed an innovative Java/XML project delivering interactive educational content and quizzes, boosting user engagement and knowledge retention; resulted in a 40% increase in user retention and a 25% increase in quiz completion rates.
- Orchestrated the development of Android applications using Java, XML, and Android Studio; optimized UI/UX design resulting in a 40% increase in user engagement and a 25% boost in app ratings.
- Designed and implemented interactive quiz features for users to test their knowledge.
- Utilized RecyclerView and custom adapters for smooth scrolling and efficient data handling.
- Implemented a scoring system to track user performance and display results after each quiz.
- Collaborated with a team to brainstorm ideas, implement features, and perform testing and debugging.

Khaga Pharmacy App
My first client project involved managing patient appointments and generating PDF reports. It includes a photo capture feature for patient identification, referral list management, and OPD organization.
- Developed an app for managing patient appointments using Room Database
- Implemented PDF functionality for appointment data reports using Canvas.
- A photo capture feature for patient identification using the CameraX library.
- Collaborated with a team of 4 doctors for specific needs.
